Enthusiastic aspiring software developer looking for a change in career and to start my path to becoming a successful and knowledgeable Senior Developer. I have been studying software/ web development for the past 6 months in my own time outside of my current job. Since starting I have now found a great passion for it and am now looking to move into the industry and dedicate my career to software development.

SKILLS

Programming	Python, CSS, HTML
Development Tools	Git, GitHub, GitLab
Creative Software	Photoshop, Sony Vegas Pro, Adobe After Effects, Adobe Illustrator

EXPERIENCE

PCB Project Manager • Challenger Solutions - Chelmsford, UK JUNE 2019 - **CURRENT**

- Working as part of the rapidly growing Box Build department at Challenger Solutions, I am in charge of the Rotolight NEO2 project.
- My day to day duties involve the organisation of the build team, stock control and reporting of current progress, and reporting all relevant information and figures to the line manager.
- Assisting with the constant development and improvements within the company and externally with Rotolight to develop their upcoming projects.

Race Director • Brentwood Karting - Brentwood, UK MARCH 2014 - **CURRENT**

- When I was on shift as the race director my duties included ensuring the smooth running of all activities throughout the day, dealing with any customer queries or complaints, delegating responsibilities to the race marshals and making sure all health and safety checks and briefs were carried out.
- Alongside my main role I also helped to ensure that all facilities are maintained and customer areas were clean and tidy., I worked as a trainee race mechanic for both the car and kart racing sides of the race team.

Small Engine Mechanic/Forklift Operator/General Labourer • AJB Diesel - St Peters, Australia SEPTEMBER 2018 - MAY 2019

- Working as part of the AJB team, I am in charge of servicing/repairing all small engine tools that may come into the workshop such as lawn mowers, chainsaws, concrete saws etc.
- As well as being in charge of this area of the business, I also had a range of other responsibilities including general labour around the workshop, delivering/picking up parts from all over Sydney, and I am the forklift operator for the company having to carry out tasks such as lifting/removing engines, moving stock etc.

Lead Generation • First Data - Chelmsford, UK FEBRUARY 2018 - SEPTEMBER 2018

- As part of a very large payment processing company I worked as part of the lead generation team.
- This was a very fast paced role as we were targeted and had incentives based on number of calls and other areas daily/weekly and monthly.

Sales Executive • Glyn Hopkin Nissan - Chelmsford, UK MARCH 2017 - SEPTEMBER 2017

- As part of the sales team I worked within the showroom selling new and approved pre-owned Nissan vehicles.
- This job required me to work to strict sales targets, as well as building and maintaining existing customer relations, and meeting with new customers throughout the working day.

Medical Repair Technician • Olympus Keymed - Southend-On-Sea, UK FEBRUARY 2015 - MARCH 2017

- Part of the Technical Services team, I carried out complex repairs on Endoscopes and other medical cameras.
- I have been trained to obtain my repair licence, and my role demanded strict organisation, attention to detail and hygiene as we were working on equipment that was used inside the human body.
- During my time working at Olympus I have obtained a good understanding on how endoscopes work internally and how to investigate and diagnose electrical and mechanical issues with the scopes.
